NEW
PRODUCT
2024

3D⁺

Natural, deep embossed,
unique colour woodgrain
Composite Decking.

 **Composite Prime®**

**BUILD WITH
PRIME.**

Natural, deep embossed **Composite Decking** with two unique woodgrain finishes and an advanced true grain colour system.

Board Dimensions:
25 x 146 x 3600mm

HD Deck 3D+ is a brand new development for 2024, an evolution of our long-standing HD Deck 3D product, now featuring a performance hybrid capping layer. HD Deck 3D+ is available in four natural colours with a natural woodgrain on one side and a linear woodgrain on the other. Our unique True Grain Colour System ensures that no two boards are the same.
